THE MIRACLE

PIANO TEACHING SYSTEM

IT'S FUN...

The Miracle is probably the world's easiest, most entertaining way of learning how to play the piano, a unique way of bringing out the musician in you.

All you do is plug the professional quality keyboard into your computer... load the software... and away you go.

The Miracle makes learning fun, for adults and children... the whole family. From finding middle C right through to being able to read music and perform Pop, Rock, Jazz and Classical music in front of your friends.

A unique feature of The Miracle are the host of arcade style games available, for example the Shooting Gallery – hit the correct note and you score a point, and Roboman® – he helps you learn rhythm.

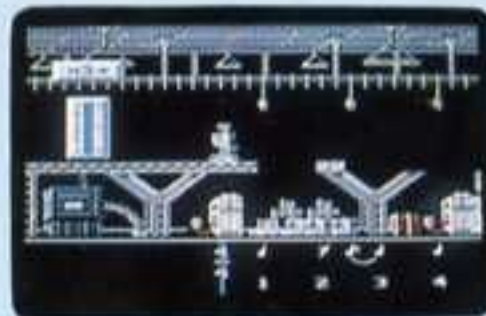

AS YOU PLAY THE SHOOTING GALLERY YOU'RE LEARNING THE NOTES.

The system sounds fantastic too. You'll find your Miracle keyboard has its own set of built-in stereo speakers, 128 different sounds (organ, piano, vibraphone, digital waves etc),

four drum pads plus a MIDI socket for playing through your hifi. You can even use all 128 sounds without the computer... so you can perform at a friend's house.

Like a piano there's a sustain footpedal... we've even included personal headphones, use them until you're ready for a public performance!

YOU LEARN RHYTHM AS YOU RACE ROBOMAN. (NINTENDO VERSION ONLY.)
